

# Self-Sufficiency...a Reality or a Dream?

Many cruising sailors have been sold the dream of self-sufficiency, only to discover the reality of depending on civilization for support and maintenance. The *Endeavourcat 30* combined with the exclusive Endeavourcat Pacs™ is a dream come true.

The optional Passagemaker Pac™ and CopperClad™ permanent anti-fouling bottom, combined with the standard no-maintenance exterior, electrolysis free underbody, and advanced sailhandling systems, make the *Endeavourcat 30* a cruiser that not only can be sailed alone - but *left* alone.
