

Closing Procedures

1. Closing occurs on the day that the vessel is ready to be shipped from the Endeavour Catamaran Corporation (hereinafter referred to as Endeavour) factory in Clearwater, Florida. Closing includes the transfer of all legal documents pertaining to the ownership of the vessel and payment in full of the balance due to Endeavour.
2. The vessel will be trucked to the commissioning yard for bottom painting upon finalization of the closing.
3. Upon completion of the bottom painting, Endeavour will commission the vessel as well as detail the interior and exterior.
4. You take delivery! WELCOME ABOARD!!
5. The slip at NOA is yours to use for two weeks. An Endeavour staff member will spend some time with you onboard to familiarize you with the systems of your new ENDEAVOUR CATAMARAN.
6. We recommend that you take a mini trip away from the marina during this time, so that you can try out all the systems of the boat. Please list any items that may need attention or that you have questions about so that Endeavour can ensure your complete satisfaction before you depart the Tampa Bay area.

Enjoy your cruising,

Bob and Alice Vincent
